

GETTING YOUR GED: WHAT TO EXPECT

WHAT TO EXPECT FROM A GED COURSE

- Students are given an entry exam called the **TABE** test (Test of Adult Basic Education, which covers English, Reading and Math). The **TABE** test will show what level the student is currently at and what the student needs to work on.
- A plan will be created for the student to begin preparing for the **GED** (General Education Development) test. Each student will work at their own pace and will be able to take as many practice tests as needed to be sure they are ready for the GED before taking it. (Practice tests are given in 5 subjects-Science, Social Studies, Writing, English, Math.)
- The length of the course is different for each student depending on what level they begin at and the pace in which they work
- Once a student is successful in passing the practice tests the course provider will help the student fill out the application to take the GED test. There are several locations to take the test and the fee for taking it is **\$70**. The GED test is a 7 hour and 5 minute test and is given over the course of 2 days. Course providers will be able to answer further questions.
